Tools for Schools at Chileda
By Kevin Millard

La Crosse, WI (WXOW) – Wellness education for students at Chileda Institute in La Crosse is the focus of a grant from the Tools for Schools program.

Trista Zimmerman and Anita Dickman received the \$750 award from WXOW, Brenengen Auto, SSE Music, and Dependable Solutions.

Both say Chileda doesn't currently have a health or wellness course. Zimmerman said the grant money will go for buying supplies and materials to help implement a healthy habits program.

"We are going to be doing a healthy habits program, hopefully over the summer so the next few months. We're going to be focusing on health, wellness and just overall wellbeing for the students," said Zimmerman.
