La Crosse, WI (WXOW) – Siblings of kids with special needs deal with their own challenges. To that end, Chileda offers a series of workshops at its Development and Learning Center called SibShops.

This opportunity gives kids ages 7-12 who have a brother or sister with special needs the ability to come together with other kids like them. With activities and games, the kids get support from their friends and counselors from Chileda. They can also talk about experiences or feelings they may have in a safe environment.

The next SibShops event is at the Development and Learning Center on Mormon Coulee Rd. on December 14. It runs from 9 am to noon and costs \$10 to attend.

Chileda asks that you register ahead of time so they know how many facilitators to have on hand. You can do so by calling 608-782-6408 ext. 368 or emailing karriez@chileda.org.
